VEHICLE MANUFACTURERS' WARRANTIES

In the United States:	Use of FRAM® products will not void your Original Equipment warranty. A manufacturer may not require the use of any brand of filter unless either the manufacturer provides the filter for free-of-charge under terms of the warranty or the manufacturer successfully demonstrates to the Federal Trade Commission that its product will not work properly without a specified item or service. To date, the FTC has not made any such determination for filtration products. If a manufacturer makes a claim that using a FRAM® product will void or has voided your warranty, ask the manufacturer to provide this statement in writing.
Outside of the United States (excluding Canada):	FRAM® processes warranty claims on a world-wide basis. The use of aftermarket parts during applicable warranty periods may impact the manufacturer's warranty. Check the terms of your Original Equipment warranty which may require the use of a specific brand of filter for a valid warranty claim.
